Driver licence	Car, Lorry
Equipment experience	Tractor(good)
6. Hobbies and interests	
I am fond of fishing, I like to go in for sport games	
7. Job start date	
As soon as possible	

Autobiography

My name is Serhii. I'm 33 years old. I was born in a small town. I have a small family. My father Mykola died in 2002. My mother Valentyna is a pensioner. I am married, my wife Natasha, works at a plant and I have two children.

My height is 182 cm, weight 107 kg.

From my childhood I've been connected to the country style of life. As I said I have been living in a country side since my childhood. My family always had some animals : pigs, a cow, and rabbits. My parents taught me to look after domestic animals, feed, water, brush and clean after them.

While studying at secondary school I was fond of repairing cars. I like to help my father with machinery. That is why after finishing school I attended a technical course where I was taught to repair cars and engines.

I worked for some years at a car service station. But when I got married I decided to start up my own business. My dreamt about a family farm. But first I wanted to work at a dairy farm and to learn how to take care of cows.

In 2015 I found a job at a dairy farm. I worked for 7 months. I looked after 50 cows, fed and milked them and cleaned the stables. I used agricultural equipment and milking equipment.

In 2016 I entered Agrarian Lyceum, the faculty of veterinary. There are some training farms near my lyceum, where the students have practice. Of course I also had a practice term at a dairy farm, where I did all common work for the farm.

I have good English. I also speak Ukrainian and Russian.

I have a driving license and I can drive a car and a lorry. Also I can drive a tractor.

As to my hobby I am fond of fishing and I like to go in for sport games.

I'd like to work in Norway because I want to apply my knowledge and also to get experience of work in the cattle branch, it's the best way to widen my outlook, to communicate with foreign farmers and to learn from them.

Regards,

Serhii.
