Driver licence	
Equipment experience	
6. Hobbies and interests	
Football, basketball, volleyball. I am a football fan.	
7. Job start date	
As soon as possible	

Autobiography

My name is Yevhenii. I was born in the village. I am 37 years old. I am married. My wife's name is Liudmyla. We study together, we are colleagues and we are fond of horticulture. We have a 6 years old son. Our family is friendly. We like to have an active rest. We often play sport games.

As I was born in the village I have been involved in agriculture since my childhood. My family had a plot of land where we grew vegetables. Also there was a garden near our house. There were a lot of fruit trees. Of course my parents taught me to look after trees.

After school I had several places of work and all of them were connected with growing plants. I worked in greenhouses with cucumbers and tomatoes.

From 2009 till 2016 I was working at a research farm near the Institute in our native town. My duties were carrying out of biochemical analysis of fruits and agrochemical analysis of soils, organization of work on the cultivation and care of fruit and berry plants, the cultivation of fruits and rare plants, tree trimming.

In 2016 I entered Agrarin Lyceum, the faculty of agronomy. My wife also studied together with me. We like to learn something new about care of plants.

As for my hobbies I am fond of sport such as football, basketball, volleyball. I am a football fan.

Now I and my wife are looking for a job in Norway. We want to get abroad experience in the sphere of horticulture. The business of my life is crop production and I want to develop myself in this sphere.

Regards,

Yevhenii.
