Driver licence	Car
Equipment experience	
6. Hobbies and interests	
Archeology, animals, cars, books, computer science.	
7. Job start date	
As soon as possible	

Autobiography

My name is Oleksandr. I am 26 years old. I was born in Ukraine. I have a small family. My father Oleksandr is a builder, my mother Nelia works as a saleswoman. My younger brother is a schoolboy. I'm not married.

My height is 176 cm, weight is 65 kg.

I studied at secondary in my native town. I liked Biology at school because I spent a lot of time in the countryside and had some skills in working with the animals. My parents kept some animals. Of course I helped them. Since childhood I have been caring for rabbits and chickens. When I get elder, I started helping with our cows. I fed and watered them, cleaned their boxes.

After school I worked in the cafe and in the shop. I wanted to have my own money. And at that time I decided to try my hand in the sphere of livestock as I had already experience in looking after the domestic animals.

In 2013 I entered Agrarian Lyceum, the faculty of veterinary. I liked my studying, because we combined gaining important theoretical knowledge and doing practical training and as a result it helped me foster my skills and knowledge.

After graduating in 2016 I worked as an assistant of farmer in the Ukrainian farming enterprise. I was responsible for milking cows, feeding, cleaning and disinfecting of stables, taking care of cows and calves, moving animals, monitoring animal health, baby calves feeding, delivering of straw to calves.

During my studies, I was eager to undertake the internship abroad, but due to some circumstances I didn't manage to do it. That's why after getting experience in Ukraine I started looking for work abroad. In 2018 I went to Denmark on the dairy farm. It was a great 1-year-long experience. There my duties included feeding and watering livestock, monitoring food and water supplies, milking cows, using milking machinery, monitoring health (detecting mastitis or abnormal milk) and giving medicine, demonstrating and explaining farm work techniques and safety regulations to new hires, cleaning stalls, pens, and equipment, using disinfectant solutions, brushes, shovels, water hoses, and/or pumps.

I have a good command of English (IELTS B2). My native language is Ukrainian. Also I speak Russian fluently. I have a driving licence and can drive a car. As for my hobbies, I am fond of cars and computers and I like to read a lot.

I would like to work in Canada for a number of reasons: first of all because Canada is an incredible country with great nature and advanced economics. I would be glad to share my experience with the Canadian farmers and get new ones. Also I always aim to widen my outlook and meet interesting people. I would like to work at a dairy farm.

Regards,

Oleksandr.
