Equipment experience	Milking machines(satisfactory), Car(good)
<b>6.Hobbies and interests</b>	Fishing, reading, travelling
<b>7.Job start date</b>	As soon as possible

# Autobiography

---

My name is Yenenii. I am 28 years old. I was born in a small town Myronivka, Kyiv reg., Ukraine. My father is a driver, my mother is a housewife and my younger brother is a student. I am married and I have a daughter.

When I was a pupil, I spent all my summer vacations at the village, where my cousin's family and grandparents lived. They have pigs, cows and a lot of rabbits. Every day I helped to feed, water and clean the barns. I looked after animals with pleasure, it was rather my hobby. That is why I decided to be a vet.

In 2008 I started to obtain my higher education in Bila Tserkva National Agrarian University at the faculty of Veterinary Medicine. During my study I trained a lot at a training livestock farm. In 2013 I got a diploma of a specialist and in 2014 I received a Master's Degree in Veterinary Medicine.

Talking about my working experience, after graduation I worked as a service veterinarian by the address Ivana Honty Street, 3, Uman, Cherkasy reg., 20300, Ukraine, Association of Milk Producers, +380672327853. There I did

- veterinary support of dairy farms,
- evaluation and analysis of production indicators,
- ultrasound diagnosis of pregnancy,
- artificial insemination,
- implementation of cattle prevention and treatment cattle.

I worked there from December 2015 to January 2018 and got a lot of useful skills.

Despite my young age, I have an abroad working experience, too. From May 2018 to May 2019 I was in Denmark at a pig farm. The farm is situated by the address Øksendal 19, Frøslev, 7900 Nykøbing, Morten Vilsgaard, +4524236668. I worked with all types of pigs there, such as: sows, suckled pigs and newborns. My main tasks were

- feeding and watering pigs and piglets,
- vaccination, treatment of sick pigs with medicines,
- moving pigs,
- artificial insemination,
- castration,
- washing and disinfection of boxes,
- work outside and doing small repairing.

As for my lifestyle, I'm an active person. I go to the gym on weekends, play football and have fishing sometimes.

I know that Canada has a very developed agriculture sector. Besides, I heard a lot about the farms in this country, which are cozy, modern and have good technical equipment. This is why I would be glad to get an opportunity to become a part of the agricultural sector in Canada and get a long-term work at a pig breeding farm. I'm dreaming to get a residence permit for my family, too.

Regards,  
Yevhenii
