Speciality/ Title of qualification awarded	Certificate in Veterinary
5.Personal skills and competences	
Mother tongue	Ukrainian
Other language(s)	English - Good
Driver licence	Car
Equipment experience	
6.Hobbies and interests	Fishing
7.Job start date	As soon as possible

Autobiography

My name is levgen. I'm 33 years old. I live in a town Uman, Cherkasy region, Ukraine. I have a wife and two children. My wife Olha is an artist, daughter Diana is a student and a son Roman is two years old.

My height is 174 cm, weight is 83 kg.

After secondary school I was studying in Uman National University of Horticulture from September 2008 to June 2011. I've got the diploma in management of foreign economic activity.

However, I decided that this specialty wasn't something I was dreaming about. I always was fond of agriculture, that is why I changed my life and entered Agrarian Lyceum in September 2011. I was studying veterinary there. I've got my diploma of a vet in June 2014.

Then I've start to work in the sphere of farming. I went to Denmark in December 2014. I worked in the pig farm. While staying there, I developed new skills in caring mainly of slaughter pigs, feeding and watering, checking, preparing and weighing food, controlling of feeding and ventilations systems, treatment with medicine, washing farm buildings by pressmachine, washing stables and receiving pigs from klima stables, castration, artificial insemination, tail cutting, assisting in farrowing, iron vaccination, shipping pigs for selling . I worked in Denmark till April 2016 and got good practical skills in farming.

When I came back home, I found the job in the livestock farm near my native town.

After that, I decided to continue getting experience of working with pigs in Finland. I worked there from June 2018 and finished in July 2019. I worked in the insemination section and transponder section. There I did monitoring the health of piglets and hogs, recognizing and treatment health problems of pigs, vaccination, treatment of sick pigs with medicines, feeding pigs, piglets and hogs, doing castrations, carrying for breeding and artificial insemination, washing and disinfecting of stables and feeding equipment, chiping, repairing of chips, working with transpoder.

As for my driving experience, I have a driver's license in category B. I'm good in car driving and also had a little practice of driving a tractor in Denmark.

I can speak English well.

As for my hobby, I like fishing and spending time with my family.

Speaking about my choice, I like Canada and I have heard a lot about this country, its good people, nice climate. Also I know that there is a big number of good farms with professionals in pig growing and new machinery. So I would like to work and to gain useful experience in this country.

Regards,

levgen
