Other language(s)	English - Perfect, Russian - Perfect
Driver licence	Car
Equipment experience	Tractor(good)
6. Hobbies and interests	
Sports	
7. Job start date	
As soon as possible	

Autobiography

My name is Vladyslav. I'm in my late twenties, 26 to be exact. My native country is Ukraine. I have a family of four. My father is a fireman and my mother is a housewife. I have a younger sister, she is a schoolgirl. I'm married and I have son. My son is one year old.

I am 182 cm in height and 85 kg in weight.

I used to live in the countryside because our house was in an agricultural area. At school, I was interested in Math and Biology, which were easy for me. As the oldest child in the family, I am used to being responsible and coping with my household responsibilities, as well as taking care of plants and animals. My parents taught me how to feed, water, and clean up after the domestic animals. This is what I do with pleasure and would like to develop my skills.

After finishing school study I found a job at the plant. It was very exciting and useful work, during which I have got an unforgettable experience. After that I decided to get an agrarian education.

In 2014 I became a student of Agrarian lyceum, veterinary department. I studied there for two years and acquired all the necessary knowledge for the profession of vet.

Immediately after the lyceum I found a job at a dairy farm in Dnipro Region, Ukraine. I worked there for a year, from January 2017 to January 2018. During this work period, I improved my skills in milking, taking care of cows and calves, feeding and watering cows, giving vitamins and minerals, cleaning inside and around the farm.

I have always been interested in developing my practical animal care skills, so that I decided to get some abroad experience.

I went to Denmark and I was hired on a dairy farm, where I gained new experience working with cows, calves and other farm work. My work period was from February 2018 till February 2019. I had to deal with different kinds of work such as taking care of cows and calves, separating cows for inseminating, monitoring the health of cows and calves, treatment with medicine, working with farm machinery and driving tractors, milking cows twice a day, spreading straw and cleaning, helping with harvest and birth assistance.

My main hobby is sport, I have been practicing biathlon for three years and one year of boxing. I still admire biathlon.

My English skills are good and I can speak English fluently.

I have my driver's licence on the car. I'm good at driving a tractor.

My main goal always was to learn something new, and become a better expert in thing that I love more in my life - veterinary. I'm not afraid of something new and I like physical work. That's why I would be very glad to get an opportunity to learn more about dairy farming in Canada. I would also like to broaden my outlook, meet new people and get to know a new country.

I am looking for a permanent job and am sure to find one in Canada!

Regards,

Vladyslav
