Driver licence	Car
Equipment experience	
<b>5. Hobbies and interests</b>	Reading books, doing sport
<b>6. Job start date</b>	As soon as possible

# Autobiography

---

My name is Dordiai Vasyl. I was born on February 27, 1992 in the township of Shepetivka, Khmelnytskyi region. I have a small but the best family which consists of my parents, younger sister and me. My mom works as a saleswoman in a hypermarket. My father worked as a serviceman, now he is retired. I am not married. My height is 172 cm, my weight is 84 kg.

In 1998 I entered secondary school in Shepetivka and in 2009 I graduated. After that I tried my hand in different jobs and volunteered for the Anti-Terrorist Operation Zone in Donbas. From 2016 to 2019 I served in the National Guard of Ukraine in the Special Purpose Regiment. But I decided that it was high time to choose one direction and move in it.

The branch of professional activity was defined at once, because as far back as at childhood I spent a lot of time in the village near my township. There my grandparents lived and kept the household. They cultivated the plants and bred domestic animals such as two cows, rabbits and chickens. I helped them in all activities and in such a way I learnt the basics of looking after the garden and livestock. Now my grandparents are elderly people and don't have enough power to keep the household. I would like to follow their steps, set up a small dairy farm and production of dairy products.

That's why in the same 2019 I decided to get the agricultural education in the Vocational Agrarian Lyceum. I entered on the faculty of veterinary and stockbreeding. During the first semester I did the practice on the training farm of the lyceum where I had such duties as taking care of the animals, feeding and giving water to them, moving the animals, washing the stables.

I speak foreign languages: English (satisfactory), Russian (fluent), Ukrainian (native). I have a driving license and can drive a car. As for my hobbies I like reading books, doing sport.

From the internship I expect new experience, practical skills and adoption of the agricultural methods and approaches of Danish farming. It is one of the best and I would be thankful for the opportunity to work there on the dairy farm.

Regards,

Vasyl
