## Autobiography

---

My name is Vadym Vyporkhoniuk. I'm 25 years old. I am married. I have a small family. My wife's name is Kateryna, she is 23 years old. We don't have children yet. My father's name is Petro, he is a policeman. My mother's name is Svitlana, she is a nurse. My sister's name is Vika, she is raising a little son Daniel, he is 3 years old. My height is 178 cm, my weight is 80 kg.

In 2001 I went to school and graduated in 2012. In 2012, I went to serve in the National Guard of Ukraine, and served there for 6 years. For this time I came to conclusion that I would like to get the education in agriculture and connect my professional life with this field as I was used to and liked it. My grandmother lives in the village. She has pigs and always when I have time I help her take care of them.

In 2019 I entered the Vocational Agrarian Lyceum on the faculty of veterinary and stockbreeding. When I was studying in the first semester, I undertook the practice on the training farm founded specially for students of the lyceum. I was responsible for taking care of the animals, feeding and giving water to them, moving the animals, washing the stables.

I can speak English on the satisfactory level and Russian on the perfect level. My native language is Ukrainian. I have the driving license of a category "B" and I can and like to drive a car. My hobby is fishing.

I want to do an internship in Denmark with my wife on a pig-breeding farm. Danish agriculture is one of the most advanced and there is a lot to learn from. I would be thankful for the opportunity to gain experience in Denmark.

Regards,

Vadym
