Equipment experience	Tractor(good), Car(high), Harvester(good)
6. Hobbies and interests	Basketball, reading, swimming, tennis
7. Job start date	As soon as possible

Autobiography

My name is Artem Burchak. I was born on March 23, 1997 in the village of Tamarino. I have a family of four: parents, a sister and me. My father Andrii Burchak was born on September 24, 1974. He is an independent farmer. My mother Olha Burchak was born on October 6, 1973. She is a school secretary. She is also the leader of the children's dance group and the head of the school union. My sister Zoia Burchak was born on August 23, 1994. She is a student.

My height is 185 cm, my weight is 95 kg.

From 2003 to 2014 I studied at the secondary school, from elementary school I have been playing sports. I was the captain of the high school basketball team. I took part in regional basketball and volleyball competitions. At the age of 16, my team and I became a winner of the XII regional table tennis competitions.

I live in the village and near our house there is a hectare of garden. We grow cucumbers, tomatoes, potatoes, carrots, beets, watermelons, garlic. We have two greenhouses where we grow strawberries. At home in the spring I help to sow vegetable seeds and plant seedlings. After a while, I help to clean vegetables from weeds. When pests appear on plants, I help to prepare drug solutions to neutralize them.

In 2019 I worked in Norway at a flower farm. I got acquainted with the technologies of growing and proper care of flowers.

In summer 2020 worked in England at a strawberry farm. I participated in field work, picked strawberries. At first it was very difficult to work, but then I learned to do my job quickly and efficiently. I learned about the modern technology of growing strawberries and a wide range of its species.

After coming back in September 2020 I entered Agrarian lyceum, the faculty of veterinary and stockbreeding. There I got good experience during my practice term which I had in autumn last year. There I took care of animals, did feeding, watering, cleaning and disinfection of stables.

I have many hobbies, including sports, travel and reading. I have many friends around the world. From time to time I communicate with them via Skype, Facebook or e-mail in English and Russian. I am honest, tolerant, hardworking, highly motivated. I regularly go to the gym, I like to watch movies with friends, I learn English. Driving is a special pleasure for me.

I have always been interested in the latest technologies and developments in the field of agriculture. During my studies I attended many different exhibitions, during which I studied the latest technologies in agriculture and tried to use them in my work.

From the first year of study, I wanted to go on an internship abroad to gain the appropriate level of experience. I dream about practice at the livestock farm in Denmark.

Regards,

Artem
