Autobiography

My name is Antonina Rafaienko. I'm 33 years old. I was born on the 9-th of December, 1989 in Uman. I have a small family. My father Vitalyi works for a truck crane driver and later a mechanic at a sugar factory. My mother Halyna worked in the rural sector. I am married, I have a husband and 2 children, a daughter and a son. Now there is the war with Russia in my country. I have to look for a job in another country because it is impossible to find a job in Ukraine.

My height is 164 cm, weight 98 kg.

When I was two years old, my parents moved to the village. There since childhood, I have been connected with the rural lifestyle. Our family always had a farm where there were domestic animals such as cows, pigs, chickens, geese and ducks. My father and mother taught me now to look after our animals. And now I know now to feed, care, milk and clean up after them. Spending time with animals brings pleasure to me.

In 2009, I received a chef's diploma. I got married after the graduation. I was working in a store as a seller. I have some experience in farming. Also I was working at the a pig farm for 3 months in 2019 which is located in the territory of my village. I did various jobs there: gave medicines, did vaccinations, did feeding, washing the stables, cleaning. Also I help my mum with her cow because my mum has a weak health and needs my help with her animals.

I don't speak English very well. I can speak Ukrainian and Russian. I have a driving licence for a car.

My hobby is reading books, because they reveal many interesting events.

Now my country Ukraine is suffering from the war. The economics is in bad conditions. That is why I'm looking for a job in Denmark to apply my knowledge and experience and get new ones. I think it's the best way to learn and develop myself in the sphere of animal farming. Before the war my dream was to rebuild our small family farm and to breed pigs and cows. I think I will realize my dream after the end of the war and have a small family farm.

Regards,

Antonina
