Autobiography

My name is Serhii Simonik. I was born in Ukraine. I am 24 years old. My family is small, just my father Serhii, my mother Nina, and a younger brother Oleksandr. After the start of the war in Ukraine, my father and me were forced to leave our country and found the refuge in Denmark.

My height is 179cm, my weight is 70kg

I was born and lived in a small town and there my school years passed. During my school time I practiced judo for 8 years and received championship awards. So it helped me to be in a good shape and made my character stronger. In my spare time I helped my father in the household, cut firewood, took care for chickens and pigs. As most Ukrainian families we kept domestic animals and worked in the kitchen garden near our house. We grew vegetables for ourselves and for our animals.

After school, in 2019 I entered the Agrarian Vocational Lyceum as a veterinary animal processing operator, but could not graduate due to the start of the war. I took a pause in the study.

In Denmark I found a job at the pig farm. From March 2022 to February 2023 I was working at Sandager Skovgaard Genetics in position of a farm worker and assistant. The name of the farmer Poul Martin Egdal. There I was doing different jobs:

insemination, giving medicine, vaccination, feeding, castration,
mixing piglets, washing stables, tractor driving.

I developed my English while working in Denmark and started to study the Danish language and culture.

I have a driver's license for car and for tractors and can drive a car and a tractor.

My life credo is movement and development. I like to discover new things, professions, sciences, sports.

Now I am looking for a job at a pig farm in Denmark. I want to get more and more practical skills in pig breeding and become a real professional worker. I would like to work together with my father Serhii at the same farm.

Regards,

Serhii
