Mother tongue	
Other language(s)	English - Good
Driver licence	Car
Equipment experience	Milking machines(good)
5. Hobbies and interests	Football, acting, running.
6. Job start date	As soon as possible

Autobiography

My name is Subba Rao Naidu Nalla. I am from India. I am 22 years old. I was born on the 8-th of October 2000. I am not married and don't have children.

My height is 172 cm, my weight is 72 kg.

I am a student. The reason why I chose to gain an agrarian education is my connection with farming in my childhood. My family life has been connected to agriculture for many years. We have 3.0 acres of agriculture field where we have kept and grown different variety of crops and vegetables. Also my family has a huge experience in dairy farming. We keep 14 cows at our farm and we produce and supply milk for people of our neighbouring village. What I usually do is removing the waste at the farm and doing milking. During the milking season cows are usually milked twice a day and the yard is washed down with high pressure hoses and collected in oxidation ponds. I did all my duties with a great pleasure. So when I was a child I knew I would do in future.

In my village I got a secondary education. I went to government secondary school. I was an active and hard-working student. Most of all I was interested in Natural Sciences and took part in different Biology projects.

After finishing the secondary education I became studying for Bachelor in Agriculture from Dolphin PG College of Science and Agriculture. I like my study because I get good knowledge there. My teachers give me a lot of information in dairy farming and production. I studied a lot of subjects such as animal husbandry, animal management and breeding, dairying, milk production and project management in dairy farming, animal healthcare, animal medical - observation and many other subjects. During my study I had a practical term at the dairy training farm where our students have a compulsory practice. There I took care of cows and calves, moved them, did milking and cleaning.

I have a driving licence and can drive well.

My hobbies are driving and walking. I like it because it helps me to be concentrated.

I can speak English and I passed a language test IELTS and have a certificate.

Now I would like to apply for an internship programme in a dairy sector. I have heard about Denmark and its good developed dairy farms where the students can get good experience. I think it will be useful for me and for my future profession. After completing an internship programme I will continue my study in the college.

Regards,

Subba Rao Naidu
