Mother tongue	
Other language(s)	English - Good
Driver licence	Car
Equipment experience	Milking machines(good)
5. Hobbies and interests	Drawing, chess, singing and writing.
6. Job start date	As soon as possible

Autobiography

My name is Riyaz Chaik, I am 21 years old. I was born on the 5- th of October. I am from India. I am not married and don't have children. I live with my parents.

My height is 170 cm, my weight is 70 kg.

I have been involved into farming since my childhood because I was born and have been living in the village all my life. That's why I had the opportunity to get some experience in taking care of animals. My family has 1.5 acres of agriculture field where we have kept and grown different crops and vegetables. Also my family keeps 8 cows at our farm and we sell milk in the neighbouring area. Usually I clean the stables at the farm and do milking. During the milking season we milk cows twice a day and wash down the yard with high pressure hoses. That is why I decided to connect my life with dairy farming.

I got a secondary education in my village. I went to government secondary school. I was an active and hard-working student. Most of all I was interested in Natural Sciences, sport and English.

After getting the secondary education I entered for Bachelor in Agriculture from Dolphin PG College of Science and Agriculture. I got good theoretical and practical knowledge in dairy farming and production. I studied a lot of subjects and got good knowledge in animal husbandry, animal management and breeding, dairying, milk production and project management in dairy farming, animal healthcare, animal medical - observation and many other subjects. During my study I had a practical term at the dairy training farm where all students have a practice term. I was trained to do taking care about cows and calves, feeding, watering, milking cows, cleaning milking equipment, cleaning the stables and work areas.

I have a driving licence and can drive well.

My hobbies are driving and walking.

I can speak English and I passed a language test IELTS.

Now I would like to apply for an internship programme in a dairy farming. I know that Denmark has good developed dairy farms where the students can get usefull experience. I think it will be great for me and for my future profession. After completing an internship programme I will continue my study in the college.

Regards,

Riyaz
