<b>6. Hobbies and interests</b>	Training in the gym, riding a bike, playing football, reading, watching movies, spending time with friends and family.
<b>7. Job start date</b>	As soon as possible

# Autobiography

---

My name is Vadym Nedebelskyi. I am from Ukraine. I was born on the 27- th of July. So I am 29 years old. My family is small, just my Larysa and younger sister Viktoriia. I am single.

My weight is 177 cm, my height is 80 kg.

I got my secondary education in my native town. While studying at secondary school I was an active student and took part in different sport competition. So I am in a good shape, strong and healthy.

I got my first experience in the sphere of agriculture in the village where my grandparents lived. During every summer holidays I was spending time there and was involved into the work at our householding. My granpa kept different animals: a couple of pigs, a cow, rabbits, chickens and ducks. I helped him to clean the barn, to feed animals, to make hay for winter period. It was a joyfull time for me and I think it's the reason why I chose the profession in the sphere of farming.

After finishing school study in 2010 I entered Professional Agrarian Lyceum the faculty of Veterinary. During my studying I had a lot of practice at the training farm. I really got good experience and practical skills there.

But after finishing my study I couldn't find a job at the farm because there was a bad economical situation in farming in Ukraine. I had to go to Poland for work. I found a job in building. So I got good skills and can operate different tools.

Then I was lucky to find at the farm. In July 2020 I went to work to Denmark. I worked at the pig farm for 1,5 years. There I had some duties:

- insemination of sows, control the feeding system,
- treating piglets and sows, taking birth in sows,
- taking care of piglets, mixing piglets, vaccination,
- castrating piglets, working on a forklift,
- cleaning and washing rooms.

After coming back from Denmark thanks to my foreign experience I found a job at the pig farm in Ukraine. I was working almost 1 year. My duties were

- doing insemination, giving medicine,
- making vaccinations, feeding, cleaning,
- washing stables, doing castrations to piglets.
- working on a forklift.

I have good English, also speak Ukrainian, Russian, Polish. I have a driving license and I can drive well. I am a responsible, hardworking, sociable and cheerful guy. In my free time, I go to the gym, ride a bike, play football, read, watch movies, spend time with friends and family.

Now I had to go abroad because of the war in my country. I am looking for a job at the pig farm. I want to learn how the pigs farm are kept in Norway. Norway's agriculture is one of the most advanced ones and I want to get acquainted with its technologies.

Regards, Vadym
