Autobiography

My name is Ihor Lylyk. I was born on March 12, 1991. I am 33 years old. I have a small family. There are only my parents and an elder sister. My dad, Anatolii, works on a railway. His profile is railway repaing. My mom, Nina, is a housewife.

I am married. My wife's name is Tetyana, and she is 26 years old. I am 175 cm tall and my weight is 65 kg.

I did well at school and have been studying English since I was a child. I love sports, especially football. During summer vacations and weekends, I went to my grandmother and aunt's place to help with the cows, make hay, and do various small tasks.

After finishing school, I attended an agricultural university 01.09.2009-14.06.2013. My major was Automation and Computer-Integrated Technologies.

After my graduation, I worked in Ukraine in my field. Then, my wife and I worked abroad in Poland at a shipyard, in the Czech Republic in a warehouse, in Germany at a fluoropolymer plant, and in Finland picking strawberries. We have been working in Norway for almost three years now. We have gained experience of working in the fields. We arrived half a year before the war in Ukraine started, initially on a seasonal visa. And then switched to collective protection, continuing our work.

Our farmer is Jone Wiig Gartneri AS.

My hobbies are playing football, volleyball, and tennis.

I am a communicative, honest, hard-working, and a quick learner in any field. I can also weld metal, make repairs, and do various handyman tasks. I have a category A, B driver's license and a valid (Ukrainian) tractor driver's license.

We are looking for a job on a pig or cow farm with the possibility of switching to skilled worker visa. My goal is to work and grow in the field of animal husbandry with my wife.

I am available to start work on December 27, 2024.
