Driver licence	Car, Lorry
Equipment experience	Tractor(satisfactory), Lorry(satisfactory), Car(good)
6.Hobbies and interests	Painting
7.Job start date	As soon as possible

Autobiography

My name is Volodymyr. I was born on the 18-th of November, 1992 in Lapshyn, Ternopil region. I am 26 years old. My father is a carpenter. My mother works for sanitary company as a bookkeeper. I'm married but I don't have children yet.

All my life I live and work in the village. My family has little household. We have pigs, cows and chickens. My parents taught me how to take care about animals. I like working in household and spending time with animals.

Since 1999 till 2010 I studied in secondary school. I liked this period of time. I was good at Biology, English and Sport. From 2011 till 2012 I was serving in the army.

Next year from May 2013 to November 2014 I was working at an apple gardens in Poland. I was doing different jobs: pruning trees, reaping, harvesting, tractor driving.

After coming back I found a job at a pig farm in Ukraine. I worked almost 1 year from December 2014 till September 2015. My duties were

- taking care of pigs and piglets,
- feeding, mixing food,
- cleaning and disinfecting of stables,
- castration to piglets.

At that time I decided to gain an agrarian education and become a skilled worker in the sphere of pig breeding.

In 2015 I entered Agrarian Lyceum. I wanted to have the opportunity to learn more about animals.

During my study after the first semester I went to Denmark for internship. I worked at a pig farm from May 2016 till July 2018. There my duties were

- castration, vaccination,
- treatment of piglets and sows,
- farrowing assistance,
- selecting piglets,
- insemination(not often)
- keeping order, cleaning and disinfecting of stables.

While working in Denmark I attended a course in handling veterinary drugs and got a Certificate.

After coming back to Ukraine I continued my study in the Lyceum and got a diploma.

I can speak English well, My native language is Ukrainian, Also I speak Russian fluently.

I have driving license and I can drive a car, lorry and tractor.

As for my hobby I like painting.

I want to find a job in Canada. I am sure that it is a modern country including pig farming and they have one of the best and innovative methods and technologies in the world. That's way I would be very glad if I got an opportunity to learn more about the pigs sector of Canada. I've read a lot about farm in Canada and I suggested that because work there could help me to develop my professional skills.

Regards, Volodymyr.
