Other language(s)	English - Good, Russian - Perfect
Driver licence	Car
Equipment experience	Tractor(satisfactory)
6.Hobbies and interests	Cycletravelling, martial arts
7.Job start date	As soon as possible

Autobiography

My name is Anton. I am 27 years old. I was born in a small town of Lubny in Poltava Region. My parents are farmers. They keep chickens and sell them and their products. I am not married, I live with my parents.

From 1999 till 2009 I was studying at a secondary school. My favourite subject was English. As we lived in a town we had our own household. I always helped my parents to look after animals, to feed them and to clean cages and stables. We kept a cow, some pigs, and a lot of poultry. We had a greenhouse where we grew cucumbers and tomatoes. Then my parents decided to breed chickens for selling. After finishing school I stayed at home and helped my parents with their business.

In summer 2012 I took a part in program "Work & Travel" in US. I worked as a sales assistant and a cook simultaneously. That job helped me to improve my English.

When I came back home I continued to help my parents.

In 2015 I entered Agrarian lyceum, the faculty of veterinary. I received my diploma in 2018.

During my education, I had an internship in Denmark. From November 2016 till November 2017 I worked on a dairy farm. There I got good experience. My duties were preparing milking room, checking the equipment, moving cows for milking, testing of milk quality, washing of the milking room, spreading of the fresh straw, different types of cleaning, feeding of young cows (with milk and straw), herd moving, some equipment manipulation (switch on/off the el. hence, scrapper, gates, milking/storage equipment).

After getting veterinary education, I decided to receive more practical skills in farming. From September 2018 to September 2019 I worked on a dairy farm in Norway. I was connected to all the processes in the farm, and my daily duties included milking (manual and with milking robots), testing of milk quality, feeding cows and calves, assisting with calving, detecting cows suitable for insemination or calving, diagnostics of success or failure insemination, work with sheeps (lambing, feeding, moving, marking), cleaning and disinfection in stables, tractor driving, cutting and transportation of firewood, lawn moving, installation of fences.

I can speak English well. My hobby is cycletravelling, also I am fond of martial arts.

I have a driving licence and I can drive a car. I have skills in tractor driving, too.

Now I am young and single and want to find a job in Canada on a dairy farm. I would like to get a permanent job, because I dream for a long time in Canada. This is a country with amazing nature that I loved at first sight, fascinating culture, and interesting people. So I chose Canada as a place to work .

Regards,

Anton
