## Autobiography

---

My name is Stanislav Bobela. I am 30 years old. I was born in 1990 in the town of Uman. I have a small family. My father Viktor works as an ambulance driver, my mother is a seller in her own shop. I'm married and have a son.

My height is 170 cm, weight 71 kg.

I am a country man in my heart as I often stayed at my grandparents' place and looked after their household. And now I also visit them and help them. Since childhood I fed pigs and poultry. I watched my grandpa delivering pig's babies. I watched him taking care of chickens' eggs in the incubator and helped him. Once I had my own rabbits. For them in the field I picked up food and fed them every day. It was the useful experience. Also I helped my grandfather work at a harvester in the field and harvest wheat.

Since 2008 I worked in Finland on the farm Mutus Oy as a seasonal worker for several years. My responsibilities included weeding fields, planting fields, picking the berries, cleaning the area, delivery of berries from the field to the refrigerator by minibus.

From 2016 to 2019 I was studying in the Vocational Agrarian Lyceum on the faculty of veterinary and stockbreeding. During studying we combined learning theory and drilling skills on practice at a livestock farm of the lyceum.

I decided to take advantage of being a student of agricultural lyceum and undertake the internship in the country with well-developed agriculture – Denmark. From March 2018 to February 2019 I worked as a trainee on the pig-breeding farm Belly ApS. I had such duties as vaccinating, monitoring and treating of sick pigs with medicines, preparing feed and feeding pigs, assisting in insemination, weighing and marking the pigs, receiving of small piglets and unloading of pigs at the slaughterhouse, cleaning and washing stables, doing small repairing.

I speak English and Russian. My mother tongue is Ukrainian. I have a driving license for car, lorry and tractor. My hobby is cooking. I like to cook different dishes. Also I like riding a bicycle and running. In the autumn and winter period I go to the gym. Also I am fond of playing the guitar.

Now I am confident in my professional competence, that's why I am applying for the job for skilled worker on the pig-breeding farm in Finland. I would like to apply my skills on practice and get new ones. I would be thankful for such an opportunity.

Regards,

Stanislav
