Autobiography

My name is Vasyl. I'm 29 years old. I'm married. My parents live in the village and they have their household with domestic animals. Of course since my childhood I have been connected with farming.

I studied at secondary school from 1995 till 2006. After school I went to the big city and found a job. I worked as a shop assistant in a hardware shop called "Epicentre". Then I worked as a shop assistant in a shop called "Comfy". I was a seller for many years.

Then I found a job in Ukraine. From January 2013 to January 2015 I worked at a dairy farm. My duties were taking care of cows and calves, feeding, mixing food, assisted with milking, cleaning and disinfecting of stables.

From 2015 to 2016 I was in Germany with my wife. We applied for asylum because there was a difficult situation in our country and we were afraid for our lives. We got a denial of asylum and on August 2016, we came back.

In September 2016 I started studying in Agrarian lyceum, the faculty of veterinary.

In 2017, from April to September, my wife and I were in Poland because we needed money for our life and internship. We worked in Macdonald's. I fried meat, made sandwiches, cleaned a workplace and carried out the delivery of goods.

From April 2018 till March 2019 my wife and I were working at a dairy farm in Denmark. It was our agricultural internship. My duties were

taking care of cows and calves,
feeding, some milking,
moving cows and calves,
checking calves for illnesses,
giving injections, help in calving,
sorting cows before insemination,
cleaning and disinfecting of stables,
did simple repairs inside the farm,
driving a tractor, transportation,
loading, pushing the straw,
work in the field, making a drainage system
building works: making walls and roofs, plastering, automatic welding.

I can speak and I understand a little bit of German and Polish. Also, I speak Ukrainian and Russian. As for my hobby, I like sport, especially football and cycling, reading books and drawing pictures.

I have a driving license and can drive a car and ride a motorbike.

Recently I graduated from my lyceum and I would like to work in Canada to get experience and expand my knowledge in the sphere of dairy farming. I want to see how Canadian farmers breed dairy cows and to learn their methods of farming.

Regards, Vasyl.
