# Autobiography

---

My name is Oleksandr. I am 28 years old. I was born in a small town in Ukraine. I'm Ukrainian. I have a big family. My mother is a seller. My father is a driver. I have two brothers. One is older and one is younger. I am married. My wife name is Vira, She is 24. We studied together on a faculty of agronomy and want to work together.

As I was born and grown up in a countryside, I have been involved in agricultural work since my childhood. My family had a household and some land where we kept animals and grew vegetables, berries, fruit trees. Of course my parents taught me how to look after animals and plants.

I finished school education in 2007. Then I finished a courses of firefighters. I worked for 5 years as a firefighter that job is very responsible. It taught me to be strong and brave.

But I wanted to change something in my life. I decided to enter Agrarian Lyceum, the faculty of agronomy. From 2010 till 2013 I studied there. During my study I had different practice in greenhouses where I was I did planting, transplanting, watering, fertilizing.

After the graduation I worked in the field. I planted, took care and harvested vegetables and berries.

As for my hobby I like sport, especially team kinds of sport like football. I play for the town team for 12 years. I devote much time to sport, I like an active way of life.

I have a driving license and can drive a car, lorry and a tractor.

Now I'm looking for a job abroad to apply my knowledge and experience and get new ones, I want to work, to discover new opportunities for myself and to work in Finland with my wife. It is our dream and we are confidently going to it.

Regards,

Oleksandr
